Poverty → No Coverage
Strongest suppressor
of health access

**Fix the economy.
Fix the health.**

Key Findings — Chronic Disease Data Analysis

ZIP 70122 Hypertension Crisis — All Three Diseases Are Preventable

36%

**Hypertension
ZIP 70122**

Above national (32.4%),
LA (29.3%), and NOLA avg.
A hypertension hotspot.

19.6%

**Diabetes Rate
ZIP 70127**

Nearly double the
national rate of 9.3%.
Both ZIPs are 80%+ Black.

100%

**All 3 Diseases
Are Preventable**

Diet, activity, and early
screening can prevent
diabetes, HTN, and obesity.

Proposed Solution: Community Preventive Health Network

One Business. Three Layers. No Clinic. No Appointment. No Barrier.

Health Screenings

- BP, blood glucose & EKG
- 12 min per person
- No appointment needed
- Referrals made on-site

Nutrition & Wellness

- Healthy food sales on-site
- PWA assists with screening history
- Read your numbers session
- 5-min movement demo

Membership Model

- \$8 Basic · \$12 Standard
- \$20 Family / month
- Walk-ins: \$5 per visit
- 10% free spots always
- Employer wellness \$200–2000

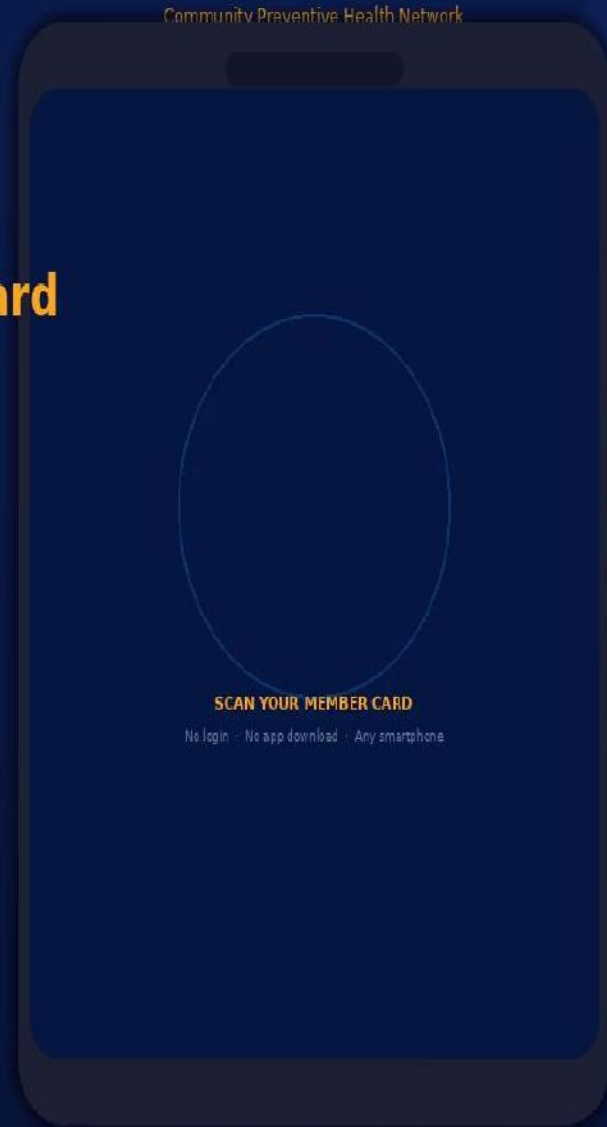

Where It Happens

- Barbershops (Saturdays)
- Churches — after service
- Dillard, Xavier, SUNO
- Local pharmacies
- Gentilly community centers
